ELISA WATSON

THE MINIMALIST AMBIENCE conceived by Travis Walton thoroughly updates this kitchen in a Victorian terrace with beautiful materials and modernist classics. “We applied a fresh approach to this refurbishment to maximise space and create an understated luxury. In the galley-style arrangement, a wide steel-framed pivot door draws in light from the rear courtyard. Minimalist detailing gives greater breathing space, mediating the character of the old with the restraint of the new. Wider stairs accommodate a deep service wall concealing amenities and appliances. Opposite, a generous marble bench is finished with a slender, recessed stone upstand. A brass ledge in lieu of overhead cabinetry maintains a sense of airiness. A fluted banquette presents a welcoming dining setting that conceals storage below.” *What luxury item did you choose for this kitchen regardless of budget?* “The Miele extractor was key in freeing the space from typical overhead cabinetry, inviting natural light to fall across the benchtop.” traviswalton.com.au
